The Legislative Audit Committee of the Montana State Legislature:

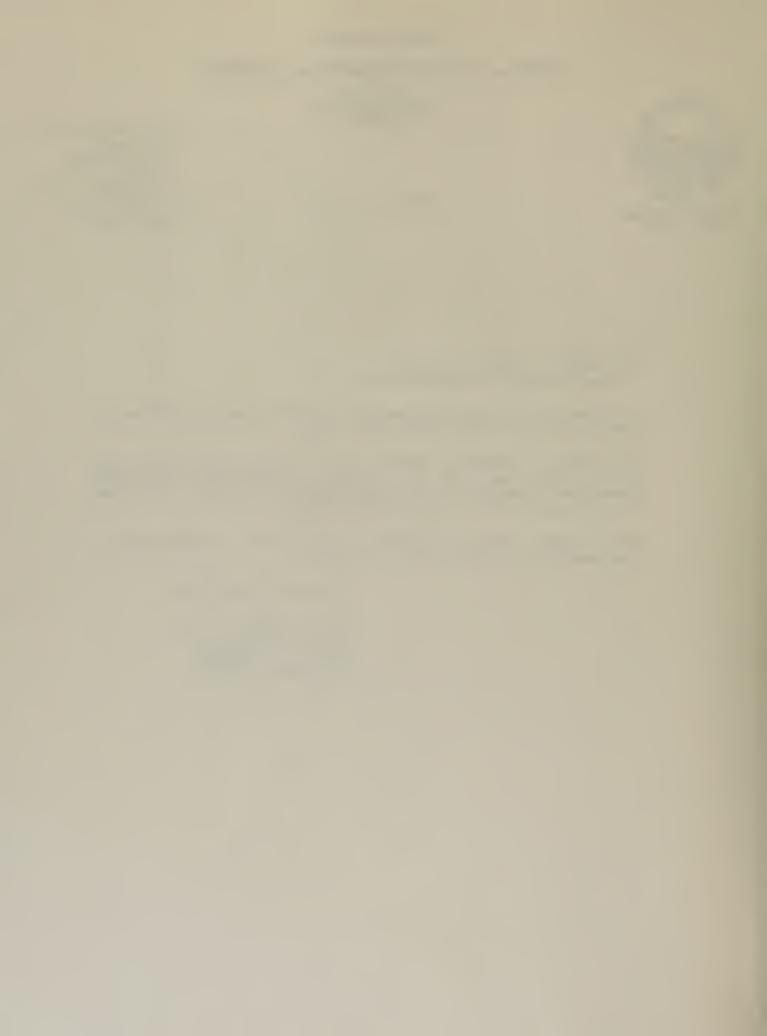

Enclosed is the report on the audit of Miles Community College for the two fiscal years ended June 30, 1982.

The audit was conducted by Haas and Associates, PSC, under a contract between the firm and our office. The comments and recommendations contained in this report represent the views of the firm and not necessarily the Legislative Auditor.

The agency's written response to the report recommendations is included in the back of the audit report.

Respectfully submitted,

Robert R. Ringyood Legislative Auditor

Part I - Introduction

The period covered by the audit of the National Direct Student Loan, College Work-Study, and Supplemental Educational Opportunity Grants financial aid programs at Miles Community College in Miles City Montana, is from July 1, 1980 through June 30, 1982. Our examination was directed toward the objectives set forth in the audit guide dated June, 1980, prepared by the Department of Education.

Background

National Direct Student Loan (NDSL) Program

The National Direct Student Loan Program at Miles Community College was established in 1971 under Title II of the National Defense Education Act of 1958, which was transferred in 1972 to Part E of Title IV of the Higher Education Act of 1965. Funds in the amount of \$109,424 have been advanced to 179 students. Of loans receivable in the repayment status, approximately 36 percent of the amounts receivable are in default.

College Work-Study (CWS) Program

The College Work-Study Program at Miles Community College was established in 1966 under Title IV, Part C, of the Higher Education Act of 1965, as amended. During the two year period ended June 30, 1982, total dollar value of Federal and Institutional expenditures under the program totaled \$18,409. During the two year period, 34 students participated in the program. The authorization award letters to the College were \$9,277 and \$8,216 for the years ending June 30, 1981 and 1982, respectively.

Supplemental Educational Opportunity Grants (SEOG) Program

The Supplemental Educational Opportunity Grants Program at Miles Community College was established in 1973 under the Title IV, Part A, of the Higher Education Act of 1965, as amended. Federal expenditures under the program during the two-year period ended June 30, 1982, totaled \$44,149 with 87 students receiving aid under this program. The authorization award letters to the College were \$19,456 and \$24,768 for the years ending June 30, 1981 and June 30, 1982 respectively.

Basic Educational Opportunity Grant (BEOG) Program

The College entered into an agreement with the Office of Education in August, 1973, to participate in the BEOG Program. This program provides eligible students with a foundation of financial aid to help defray the costs of postsecondary education. Program funds of \$95,873 were authorized for the 1980/81 academic year; and \$91,211 for 1981/82. During this period, \$187,084 was expended for the Basic Grant Awards to 305 students.

Other

College officials responsible for overall administration of the programs are the Business Office and the financial aid director, Mr. Dale Oberlander, and his staff.

The Financial Aid Office is responsible for application processing and loan approvals, as well as the College's compliance with the various regulations governing the College's participation in Federal and state student financial aid programs.

The Business Office is responsible for the programs' financial management, general ledger accounting, payments and collections.

During the two-year period ended June 30, 1982, the College disbursed other student financial aid funds of \$58,283.

Scope of Audit

Our audit of the National Direct Student Loan Program, College Work-Study Program and Supplemental Educational Opportunity Grants Program was performed in accordance with the financial and compliance elements of the Standards for Audit of Governmental Organizations, Programs, Activities and Functions issued by the Comptroller General 1981 Revision, and the audit guide prescribed by the Department of Education, dated June, 1980. The purpose of the audit was to formulate an opinion on the basic financial statements as a whole and to determine if these programs were administered in accordance with applicable laws, regulations, terms of agreements, and ED directives which are set forth in the audit guide. The audit included:

- 1. Expressing an opinion on the balance sheet, related statement of changes in fund balances, and supplementary schedules.
- Evaluation of the Institution's policies, procedures, and practices used to administer the programs.
- 3. Determination of compliance with applicable sections of the acts, related Federal regulations, and Department of Education policies and procedures.
- 4. Evaluation of the Institution's systems of internal control, accounting, and reporting, and the controls maintained in the operation of and accounting for the funds provided for the programs.
- 5. Reconciliation of the information reported on the appropriate financial statements with ED Form 646 for the years audited.

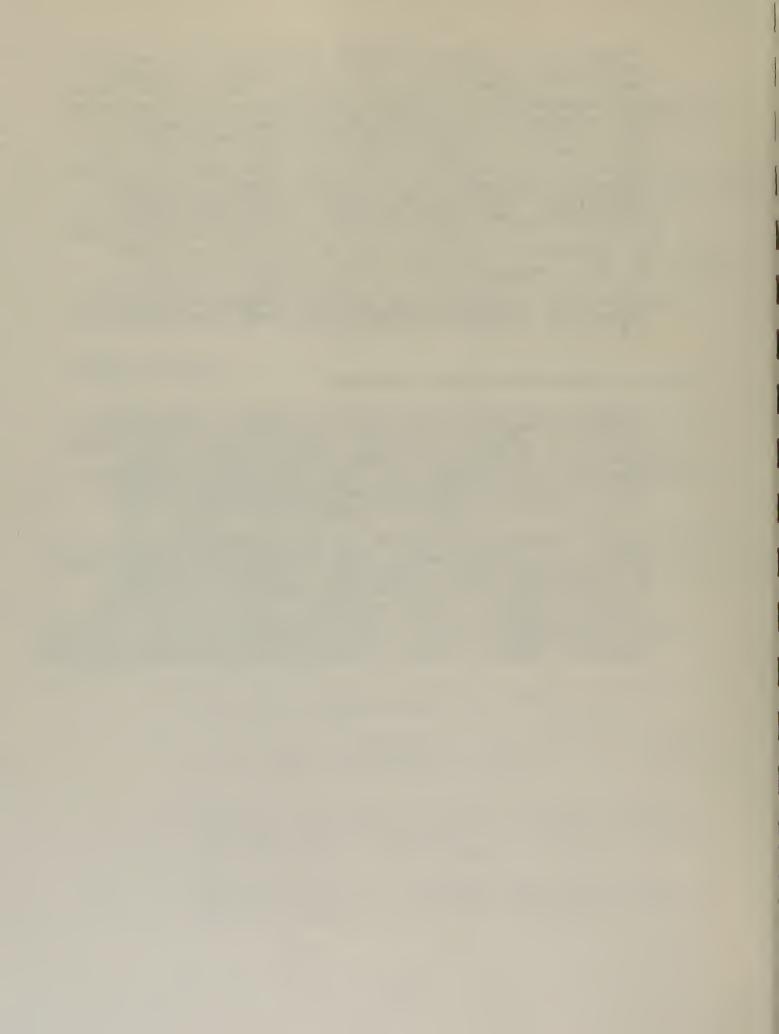

As part of our audit we obtained confirmation from selected students on SEOG awards, student participation in the CWS Program and student NDSL loan balances. We mailed 29 requests for confirmations to students participating in the programs and attempted to make telephone or personal contact with 30 other students. This is approximately 10 percent of the total number of students receiving student aid funds. We received 12 confirmation replies from the students of which ll were in agreement and 1 response was not in agreement. This difference was resolved with no adjustment required to the College's accounting records. 21 confirmations were not returned by the students or were returned by the Post Office as undeliverable, and 26 could not otherwise be reached.

The audit covered the period July 1, 1980 through June 30, 1982, and the fieldwork was performed during the months of June through November of 1982 at the Institution's business and student financial aid offices.

Part II - Highlights of Audit Results

Our unqualified opinion on the basic financial statements appears elsewhere in this report. During our audit nothing came to our attention which caused us to believe that Miles Community College had not henerally administered its financial aid programs (NDSL, CWS, and SEOG) in accordance with the Federal regulations and directives cited in the Audit Guide for the NDSL, CWS and SEOG Programs.

However, certain areas of the College's management of student aid programs were in need of improvement, specifically (1) to develop a better procedure for monitoring student work schedules and class schedules, and (2) to regularly reconcile federal reports and student note files with the accounting records. These conditions are discussed in greater detail on pages and . The College has agreed to make the necessary changes to comply with the foregoing recommendations.

Part III - Financial

Auditors' Report on Financial Statements and Schedules

11/23/82 (as to note on pg 11, 12-10-82) Miles Community College Miles City, Montana

We have examined the balance sheets of the National Direct Student Loan (NDSL), College Work-Study (CWS), and Supplemental Educational Opportunity Grants (SEOG) Programs of Miles Community College as of June 30, 1982, and the related statements of changes in fund balances for the two-year period then ended. Our examination was made in accordance with generally accepted auditing standards and in accordance with generally accepted government auditing standards for financial and compliance audits. Accordingly, we conducted such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. The Guide for Audits of NDSL, CWS, and SEOG Programs, Department of Education, dated June, 1980, was used as a guide in the examination. We did not examine cumulative information for the period from July 1, 1971 through June 30, 1980 presented in the statement of changes in fund balances and in the supplemental schedule of student loans receivable. Capital contributions made prior to July 1, 1980 and included in the statement of changes in fund balances represent 100 percent of total capital contributions made through June 30, 1982. advanced to students prior to July 1, 1980 and included in the supplemental schedule represent 77 percent of total advances made through June 30, 1982. These cumulative figures were examined by other auditors, whose report thereon has been furnished to us, and our opinion expressed herein, insofar as it relates to the activity prior to July 1, 1980 and included in the aforementioned statement and schedule, is based solely upon the report of the other auditors.

Miles Community College Page 2 Part III - Financial

In our opinion, based upon our examination and the report of other auditors, the aforementioned financial statements present fairly the financial position of the NDSL, CWS, and SEOG Programs of Miles Community College at June 30, 1982, and the changes in their fund balances for the two-year period then ended, in conformity with generally accepted accounting principles which have been applied on a basis consistent with that of the preceding period.

The examination referred to above was directed primarily toward formulating an opinion on the aforementioned financial statements as of, and for the two years ended June 30, 1982, taken as a whole. The supplemental data included in Schedules 1 through 4 of this report are presented for supplementary analysis purposes, and are not considered necessary for a fair presentation of financial position and changes in fund balances for the two years then ended.

The information contained in Schedules 1 through 4 except for the cumulative information in Schedules 1 and 2, was subjected to the same auditing procedures applied in our examination of the basic financial statements, and is, in our opinion, fairly stated in all material respects only when considered in conjunction with the financial statements of the NDSL Program (Exhibits A and A-1) taken as a whole. The cumulative information in Schedules 1 and 2 is based in part on our examination and the report of other auditors. (See first paragraph of this report.) In our opinion, based upon our examination and the report of other auditors, the cumulative information in Schedules 1 and 2 is fairly stated in all material respects only when considered in conjuntion with the financial statements of the NDSL Program (Exhibits A and A-1) taken as a whole.

The accompanying notes are an integral part of this financial statement.

1. Summary of Significant Accounting Policies:

The financial statements of the NDSL, CWS, and SEOG Programs at the College have been prepared in accordance with generally accepted accounting principles and provide for use of the accrual basis of accounting. Except as described in the following paragraph, generally accepted accounting principles are in agreement with the accounting practices prescribed for such programs by the Department of Education in the Terms of Agreement and in fiscal control and fund accounting procedures.

The prescribed practices for the NDSL Program do not provide for accrual of interest on student loans receivable or for the establishment of an allowance for doubtful loans. Accordingly, interest on loans is recorded as received; uncollectible loans are not recognized until the loans are cancelled or written-off in conformity with NDSL Program requirements. These practices do not conform with generally accepted accounting principles.

In order to fully disclose the financial position of the NDSL loan fund, an allowance for doubtful loans is included in the financial statements. The accrued interest at June 30, 1982, is not material relative to total assets and, accordingly, is not recorded in the financial statements. The allowance for doubtful loans is not included in the data submitted on the Fiscal Operation Report for the NDSL Program.

FINDINGS AND RECOMMENDATIONS - Compliance and Internal Accounting and Administrative Controls

COLLEGE WORK STUDY

College work study regulations require detailed time sheets for participants to assure that students are not working during scheduled class times. The College uses adequate time sheets; however, our review indicated that in some instances students may have worked during scheduled class hours. We were told that the time sheets are verified each pay period and the students probably attended different class sections than originally scheduled. However, it was difficult to ascertain if that was the case. An up-to-date student class schedule filed in the student file and readily accessible to the supervisors and reviewers would assure the regulations were being followed. If a student's schedule is subject to change, some other method of documentation should be developed to assure compliance with regulations.

RECOMMENDATION

1) We recommend a copy of each student's class schedule be filed with student time sheets so that reviewers may readily ascertain that college work study students are not working during class hours.

STUDENT FINANCIAL AID ACCOUNTING

The College participates in the federal Student Financial Aid programs and the federal Pell Grant programs which provide financial aid to students while attending college. The program and financial administration of these programs has been assigned to the College Registrar and the Business Office respectively. appears that annual federal reports have been prepared without reconciliation to the accounting records. A review of the previous audit workpapers indicated that the last federal audit may not have reconciled with the College general audit. College officials reviewed the accounts and reports and identified adjustments necessary to resolve the problem prior to the completion of our report. The important final process of accounting must always be reconciliation of accounting records, financial statements, and required reports, and we believe it is imperative that the College establish regular reconciling procedures.

As part of our test work we also found that several of the Student NDL loan notes on file had not been canceled and returned to the students when repaid. The file of notes should also be regularly reviewed and reconciled to the accounting records.

RECOMMENDATION

2) We recommend a regular procedure of reconciliation to assure that federal financial aid reports reconcile with the accounting records.

GRANTEE'S RESPONSE TO FINDINGS AND RECOMMENDATIONS - Compliance and Internal Accounting and Administrative Controls

An exit conference was held with Miles Community College officials on November 23, 1982. Officials present were Dr. Judson Flower, President; Mr. Wayne Muri, Business Manager; Ms. Sharon Lofland, Comptroller; and Mr. Dale Oberlander, Financial Aid Director. Their reactions to our findings are as follows:

National Direct Student Loan (NDSL) Programs

The College concurs with our recommendations and will attempt to develop a better method for review of College work study time sheets. They will also work to regularly reconcile federal reports with the accounting records.

Prior Audit Comments

The College did not reconcile the general ledger NDSL Loans receivable account with monthly reports received from its service center.

Staff Support for Student Financial Aid Programs

The financial aid officer and the business manager of the College have major responsibilities in addition to the administration of the student financial aid programs. The Department of Education stated that the College should hire additional staff to relieve the aforementioned employees of some of their responsibilities. The College intends to hire additional staff and has recently employed an additional clerical person.

The delinquency rate on NDSL Loans was approximately 35 percent at June 30, 1980. It was noted the College should make a more conscientious effort in enforcing and monitoring its collection policies.

Board of Trustees Miles Community College Miles City MT 59301

We have examined the Statement of Changes in fund balance of the PELL Grant program of Miles Community College for the two years ended June 30, 1982. Our examination was made in accordance with generally accepted auditing standards and in accordance with generally accepted government auditing standards for financial and compliance audits. Accordingly, we conducted such tests of the accounting records and such other auditing procedures considered necessary in the circumstances. The <u>Guide for Audits of PELL Grant Programs</u>, Department of Education, issued June 1981, was used as a guide in the examination.

In our opinion, the aforementioned financial statements present fairly the changes in the fund balance of Miles Community College, PELL Grant program, for the two years then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

Our examination was made for the purpose of forming an opinion on the statement of changes in fund balance for the year ended June 30, 1982. The information included in Section 3, Column A, Status of Authorization, on the Annual Progress Report (Form 255-3), for the year ended June 30, 1982, presented for purposes of additional analysis and are not a required part of the statement of changes in fund balance. Such information has not been subjected to the audit procedures applied in the examination of the basic financial statements.

Yane & accate Psc

MILES COMMUNITY COLLEGE STUDENT FINANCIAL AID PROGRAMS

INTRODUCTION

BACKGROUND

The Miles Community College entered into an agreement with the Office of Education in August 1973 to participate in the Basic Educational Opportunity Grant (BEOG) program. This program, now known as the PELL Grant Program, provides eligible students with a foundation of financial aid to help defray the costs of post-secondary education. Program funds, in the amount of \$95,873, were authorized for academic year 1980/81, and \$91,211 for the academic year 1981/82. During this period, \$187,084 was expended for 295 full-time and 10 part-time students. In addition, the institution received, during the two academic years, other Department of Education student financial funds including \$44,549 of Supplemental Educational Opportunity Grant funds and \$16,256 of College Work-Study funds.

SCOPE OF AUDIT

Our examination of the PELL Grant program was performed in accordance with the financial and compliance elements of the Standards for Audit of Governmental Organizations, Programs, Activities, and Functions issued by the Comptroller General of the United States, 1981 Revision, and the prescribed Guide for Audits of PELL Grant Programs dated June 1981. The audit covered the period of July 1, 1980, through June 30, 1982, at the institution's business and student financial aid offices. Our examination included:

- expressing an opinion on the Statement of Changes in Fund Balance;
- ascertaining whether expenditures claimed for federal funding under the PELL Grant authorization on the above financial statements are fairly presented in accordance with generally accepted accounting principles and requirements of the PELL Grant program as set forth in the Guide for Audits of PELL Grant Programs;
- assessing the institution's internal accounting and administrative controls based on the criteria set forth in Sections 3.2 and 3.3 of the ED Audit Guide; and
- determining whether the PELL Grant program was administered in compliance with applicable laws, regulations, and Department of Education instructions as identified in Sections 3.2 and 3.3 of the Ed Audit Guide and the terms of agreement.

HIGHLIGHTS OF AUDIT RESULTS

Our unqualified opinion on the financial statements appears elsewhere in this report. During our examination, nothing came to our attention which caused us to believe that the Miles Community College had not generally administered the PELL Grant program in accordance with the law, federal regulations and ED directives.

Part IV - Internal Accounting and Administrative Controls and Compliance

Auditors' Conclusions on Internal Accounting and Administrative Controls and Compliance

Miles Community College Miles City, Montana

We have examined the statement of changes in fund balance on the PELL Grant Program, for the two years ended June 30, 1982. Our opinion on the above statements in on page . As a part of our examination, we have made a study of the College's system of internal accounting control to the extent we considered necessary to evaluate the system as required by the financial and compliance elements of the Standards for Audit of Governmental Organizations, Programs, Activities and Functions issued by the Comptroller General (1981 revision). The purpose of our study and evaluation was to determine the nature, timing, and extent of the auditing procedures necessary for expressing an opinion on the above financial statements. Our study and evaluation was more limited than would be necessary to express an opinion on the system of internal accounting control taken as a whole.

We have also made a study of those internal accounting control and administrative control procedures of Miles Community College that we considered relevant to the criteria established by the Department of Education as set forth in Sections 3.2 and 3.3 of the Audit Guide issued June 1981. Our study included tests of compliance with such procedures during the period from July 1, 1980, through June 30, 1982.

The management of Miles Community College is responsible for establishing and maintaining a system of internal accounting control. In fulfilling the responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures. The objectives of a system are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles.

Miles Community College Page 2

Because of inherent limitations in any system of internal accounting control, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

Our study and evaluation made for the limited purpose described in the first paragraph would not necessarily disclose all material weaknesses in the system. Accordingly, we do not express an opinion on the system of internal accounting control of Miles Community College takes as a whole.

We understand that procedures in conformity with the criteria referred to in the second paragraph of this report are considered by the Department of Education to be adequate for its purposes in accordance with the provisions of the Higher Education Act of 1965 and related regulations, and that procedures not in conformity with those criteria indicate some inadequacy for such purpose. Based on this understanding and our study and evaluation, we noted no conditions that we believe to be material weaknesses, in relation to the grant to which this report refers, except for the conditions described on pages of this report. In addition to those weaknesses, other conditions that we believe are not in conformity with the criteria referred to above are described on pages through of this report. These conditions were considered in determining the nature, timing, and extent of the audit tests to be applied in our examination of the above financial statement, and this report does not affect our report on the financial statement contained on page of this report.

This report is intended for the information of Miles Community College and the Department of Education and should not be used for any other purpose.

Part V - Prior Audit Comments

Findings and Recommendations - Compliance and/or Financial

As part of our test work we also found that several of the Student NDL loan notes on file had not been cancelled and returned to the students when repaid. The file of notes should also be regularly reviewed and reconciled to the accounting records.

Program Refunds

The College should establish a standardized form to compute refunds that must be restored to the BEOG Program.

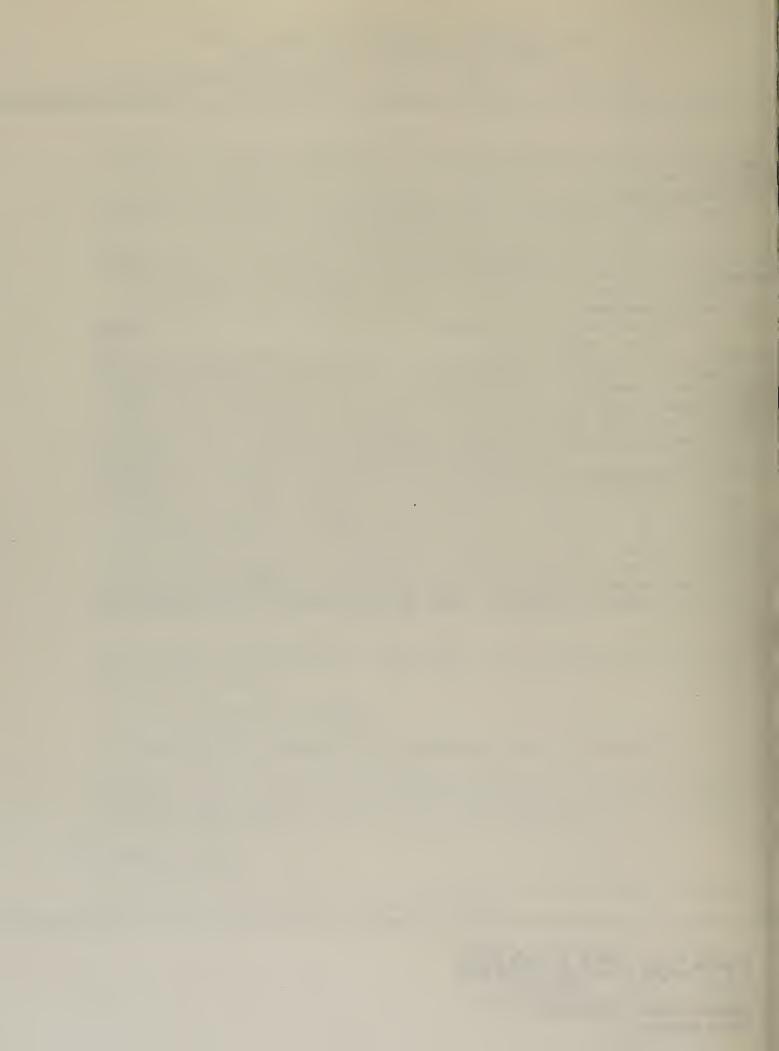

BASIC EDUCATIONAL OPPORTUNITY GRANT PROGRAM STATEMENT OF CHANGES IN FUND BALANCE For the Period July 1, 1980, through June 30, 1981
